

THE COMPLETE CASHLESS SOLUTION WIDER PAYMENT CHOICE FOR YOUR CUSTOMERS

CashFlow® mei-pay is a complete range of Cashless solutions that adapts to the needs of every application. Individual customers have a variety of requirements, some are looking for a simple additional payment option to cash, others demand integration with existing access and identification cards or a range of discounts and bonus rewards for employees.

CashFlow® mei-pay is based on MIFARE® technology, which, as an open standard, provides the flexibility you need to respond to your customers' varied needs. MIFARE® also offers the benefits of a contactless solution: with no moving parts or key insertion required, reliability is assured.

CashFlow® 8000 with integrated Cashless Reader

- Cost effective because of reduced duplication of electronic components
- Compatible with all machine types
- Delivering full machine audit from one source
- Additional MDB peripheral connector allows a note reader to be incorporated

CashFlow® mei-pay MDB

- Provides in machine revaluation and dual pricing option
- For use in conjunction with the CF690 and CF7000 as a coin and cashless offering or as a stand-alone cashless solution in MDB machines
- Compatible with all level MDB machines

CashFlow® mei-pay Master

- The solution for table top and stand-alone cashless applications
- Compatible with Executive and Parallel interface machines

MEI-PAY SYSTEM OVERVIEW

- mei-pay range is available with 3 different types of media:

All media can be customised with individual logos

- Compatible with mei-pay e-key bezel and mei-pay multi bezel:

- An option of taking audit through bezel via audit key

Bonus options with real time clock

- Full cashless functionality, including discounts and bonus periods
- Individual cards can be programmed with up to 9 bonus periods per day
- Subsidies can be set by selection or by user
- Free vend options that can be reset or carried over at the end of the day
- Loyalty bonuses triggered by usage

Programming

- With high speed Windows XP set up via intuitive menu, mei-pay can be as simple or sophisticated as you want it to be
- Security option to allocate individual codes to each site
- User groups within a site can be set up to give different bonuses to different groups of employees
- Media can be auto configured to work on a site on first insertion
- Lost or stolen cards can be blocked from the system
- Secure site identification codes are hidden from unauthorised programmers. Your information and that of your customers is secure

Compliance

- Audit fully compatible with EVA/DTS standard
- MIFARE® registered architecture
- Windows based service tools compatible with Windows 98, 2000 and XP
- Compatibility with existing management systems
