

Memo type: Handling instructions  
Subject: Inhibit Swedish 50-öre coin  
Products: Coin mechanisms from MEI

30 September 2010 the Swedish 50-öre coin ends to be valid as legal tender. To inhibit the coin in the coin mechanism follow the instructions below.

**A) Changers series CF690 and CF7000 NOT having the coin routed to a tube**

1. Press yellow button
2. Press button with label 'B'
3. Insert the Swedish 50-öre coin
4. Push the eject lever once
5. Finish by pressing the yellow button once more

**B) All other types of changers (CF560) and acceptors (CF330) plus CF690/7000 routed to tube**

We recommend you to send the coin mechanism to our Service Department for handling. The usual service tariff is applicable.
